languages

♥ Python
JavaScript, Java, C++
CSS3 & HTML5

technologies

Django, React, jQuery
Git, SCSS
Ubuntu, Unix, Windows

education

2011–2015 **Bachelor of Science** in Computer Science & Engineering
GPA: 3.876 – Magna Cum Laude
Santa Clara University

experience

- 2015 – Now **Accenture Technology** San Francisco, California
Technology Architecture Analyst
Designed and implemented a Jenkins solution for automating application deployment, accounting for easy configuration and extensibility. Triaged and resolved defects in configuration, build processes, and Java applications.
Jenkins • Bash • PowerShell • Java • SQL Developer • Virtual Machines
- Summer 2014 **Accenture Technology** San Jose, California
Business & System Integration Analyst
Contributed to a MEAN stack crowdsourcing application (MongoDB, ExpressJS, AngularJS, NodeJS), following Agile processes. Designed and created SharePoint onboarding website for new project roll-ons.
AngularJS • NodeJS • ExpressJS • MongoDB • SharePoint • Visio
- Summer 2013 **InComm Digital** Portland, Oregon
Software Engineer Intern
Created a dynamic API documentation website. Developed sample applications on top of API endpoints, including code examples for developers. Participated in Agile development.
jQuery • SCSS • C# & .NET • SQL Server • Bootstrap • Agile

awards

- 2015 **Senior Design Conference Winner** Bannan School of Engineering, Santa Clara University
Won award for the best capstone project in session. Developed a computer-vision system to extract nutritional information from images of USDA food labels. Code can be found at github.com/rsullivan00/labelRecognizer.
- 2011–2015 **University Honors College** Santa Clara University
Member of the Santa Clara Honors College.
- 2011–2015 **Provost Scholar** Bannan School of Engineering, Santa Clara University
Half-tuition scholarship for four years.

communication skills

- 2015 **Preview Day presenter** Santa Clara University
Selected to display and demo my senior design project during preview day for prospective students.

interests

professional: web app creation, software design, computer vision, natural language processing
personal: music, cooking, bouldering
